**Campaign Name:** Emergency Medical Assistance Fund by BRAC India

**Project Area:** Maharashtra, India

**Campaign Type:** Emergency Medical Assistance

**Fundraising Target:** ₹25,00,000

**Implementing Organisation:** BRAC – Bureau of Randomly Active Committee

### 1. Background

Medical emergencies can create sudden financial pressure on patients and their families.

Emergency hospitalisation, urgent diagnostic tests, medicines, surgery, intensive care and patient transportation may require immediate payment.

Low-income and financially vulnerable families may find it difficult to arrange such expenses within a short period.

Delay in arranging essential medical care may increase the difficulty faced by the patient and family.

BRAC India proposes to establish the Emergency Medical Assistance Fund to provide financial support toward verified urgent medical needs.

### 2. Purpose of the Campaign

The purpose of this campaign is to provide timely financial assistance to eligible patients facing serious and unexpected medical emergencies where lack of funds may create difficulty in accessing essential treatment.

### 3. Area of Operation

The initial phase of the campaign will primarily support eligible patients in Maharashtra.

BRAC India may expand the geographical scope in the future depending on available funds, programme capacity and identified need.

#### 4. Eligibility

Assistance may be considered for individuals who:

- are facing a serious or urgent medical condition;
- require time-sensitive treatment or medical support;
- belong to a financially vulnerable household;
- provide appropriate medical documents;
- provide information required for verification; and
- meet BRAC India's internal assessment and approval requirements.

Approval of assistance will remain subject to verification and availability of campaign funds.

#### 5. Nature of Emergency Support

Depending on the circumstances of the case, support may be considered toward:

- emergency hospitalisation;
- prescribed medicines;
- urgent diagnostic tests;
- emergency procedures;
- surgery-related expenses;
- ICU or critical-care expenses;
- ambulance or patient transportation;
- temporary accommodation where medically necessary travel is involved; and
- other essential emergency medical expenses approved by BRAC India.

#### 6. Verification Process

BRAC India may request medical reports, prescriptions, doctor recommendations, hospital estimates, bills, identity details, residence information and basic financial information.

BRAC India may contact hospitals, doctors, pharmacies, diagnostic centres or other relevant service providers for verification where required.

Additional verification may be conducted depending on the circumstances of the case.

#### 7. Priority of Assistance

Where multiple applications are received, BRAC India may prioritise cases based on:

- urgency of medical need;
- seriousness of the condition;
- possible effect of treatment delay;
- financial condition of the patient or family;
- availability of other assistance;
- amount required;
- documents available; and
- funds available under the campaign.

## 8. Method of Assistance

Where practical, BRAC India will prefer direct payment to hospitals, pharmacies, diagnostic centres, ambulance providers or other approved service providers.

Direct payment to a beneficiary may be considered where service-provider payment is not practical and the requirement has been verified.

## 9. Beneficiary Selection

Beneficiary selection will be based on verified medical need, financial condition, urgency, available documentation and campaign funds.

BRAC India reserves the right to approve, partially approve or decline an application after verification.

## 10. Monitoring and Documentation

BRAC India will maintain appropriate records relating to:

- grant applications;
- supporting medical documents;
- verification records;
- approvals;
- payments;
- bills and receipts;
- utilisation of assistance; and
- programme updates.

Where appropriate, beneficiary acknowledgements and activity photographs may also be maintained.

## 11. Transparency

- BRAC India intends to provide periodic campaign updates through its fundraising platform.
- Updates may include the number of patients supported, types of assistance provided and amounts utilised.
- Sensitive personal, medical and financial information will not be publicly displayed unnecessarily.

## 12. Use of Remaining Funds

- If funds approved for a particular patient are no longer required, treatment changes, another source meets the expense, or a balance remains after the approved need is met, the unused amount will remain part of the Emergency Medical Assistance Fund and may be used for another eligible patient.

## 13. Duration

- The campaign may continue until its fundraising target is achieved or until BRAC India decides to close, extend or revise the programme based on need, available resources and programme requirements.

## 14. Reporting

- BRAC India may publish periodic utilisation updates and a campaign completion or impact report showing:
  - total donations received;
  - total amount utilised;
  - number of beneficiaries supported;
  - types of assistance provided; and
  - remaining balance, if any.

## Declaration

BRAC India confirms that donations received through this campaign will be used for the charitable purposes described in this Project Note, subject to beneficiary verification, programme requirements and availability of funds.
