Campaign Name: Street Animal Support Fund by BRAC India

Project Area: Maharashtra, India

Campaign Type: Animal Welfare / Street Animal Support

Fundraising Target: ₹12,00,000

Implementing Organisation: BRAC – Bureau of Randomly Active Committee

1. Background

Street animals may suffer from road accidents, injuries, illness, infection, abandonment and lack of timely veterinary care.

Members of the public, feeders and animal rescuers often attempt to help such animals but may face difficulty arranging treatment costs, medicines, rescue transport or temporary recovery care.

BRAC India proposes to establish the Street Animal Support Fund to provide financial assistance toward verified animal welfare cases involving injured, sick or otherwise vulnerable street animals.

2. Purpose of the Campaign

The purpose of this campaign is to support timely veterinary treatment and related welfare needs for eligible street animals where financial assistance can reduce suffering and improve the animal's chance of recovery.

3. Area of Operation

The initial phase of the campaign will primarily support verified animal welfare cases in Maharashtra. BRAC India may expand the geographical scope in the future depending on available funds, programme capacity and identified need.

4. Eligible Cases

Support may be considered for cases involving:

- injured street dogs or cats;
- animals affected by road accidents;
- abandoned puppies or kittens requiring urgent care;

- serious illness or infection;
- animals requiring surgery or emergency veterinary treatment;
- rescue transportation;
- temporary recovery support; and
- other verified street-animal welfare needs.

Approval remains subject to verification and availability of campaign funds.

5. Proposed Support

Depending on the verified requirement, assistance may include:

- veterinary consultation;
- emergency treatment;
- prescribed medicines;
- diagnostic tests;
- wound care;
- surgery-related expenses;
- rescue transportation;
- temporary shelter or recovery care;
- post-treatment medicines;
- vaccination or sterilisation where approved;
- recovery-related food support where necessary; and
- other essential animal welfare expenses approved by BRAC India.

6. Verification Process

BRAC India may request photographs or videos of the animal, location details, veterinary reports, prescriptions, treatment estimates, bills and information about the rescuer or person reporting the case. BRAC India may contact the concerned veterinary hospital, clinic, pharmacy, rescuer, shelter or other service provider for verification where required.

Follow-up photographs or recovery information may also be requested.

7. Priority of Assistance

Where multiple cases are received, BRAC India may prioritise cases based on:

- seriousness of the animal's condition;
- urgency of treatment;
- risk caused by delay;
- availability of other support;
- estimated treatment cost;
- supporting documents and verification; and
- funds available under the campaign.

8. Method of Assistance

- Where practical, BRAC India will prefer direct payment to veterinary hospitals, clinics, pharmacies, animal ambulance services, shelters or other approved service providers.
- Reimbursement or direct financial assistance may be considered where direct provider payment is not practical and the expense has been properly verified.

9. Case Selection

- Cases will be selected based on verified need, urgency, available documentation and campaign funds.
- BRAC India reserves the right to approve, partially approve or decline a request after verification.

10. Monitoring and Documentation

- BRAC India will maintain appropriate records relating to:
- case applications or requests;
- animal photographs or videos;
- veterinary documents;
- verification records;
- approvals;
- payments;
- bills and receipts;
- treatment updates; and
- recovery information where available.

11. Transparency

- BRAC India may provide periodic campaign updates showing:
- number of animals supported;
- type of assistance provided;
- amount utilised;
- treatment or rescue updates; and
- supporting photographs or documents where appropriate.

12. Use of Remaining Funds

- If an approved expense is no longer required, another source covers the treatment, or a balance remains after approved assistance has been provided, the unused amount will remain part of the Street Animal Support Fund and may be used for another eligible animal welfare case.

13. Duration

- The campaign may continue until the fundraising target is achieved or until BRAC India decides to close, extend or revise the programme based on need and available resources.

14. Reporting

- BRAC India may publish periodic utilisation updates and a campaign completion or impact report showing:
- total donations received;
- total amount utilised;
- number of animals supported;
- types of assistance provided; and
- remaining balance, if any.
